Detoxification & Inpatient Residential Rehabilitation Program in Pittsburgh

Program Overview
Our newest Pittsburgh facility provides detoxification (3A), short-term (3B), and long-term (3C) inpatient residential rehabilitation programming and treatment of co-occurring mental health and substance abuse disorders for adult men and women in separate, structured, and secure environments.

Key Program Elements
- Professional drug and alcohol assessments and individualized treatment recommendations
- Professional dual diagnosis/co-occurring assessments and individualized treatment recommendations
- Gender-specific recreational activities, amenities, and housing
- Small treatment community enhances client's opportunity for additional therapeutic interactions at various levels
- Medically-monitored care ensures a safe and comfortable detoxification experience for the client
- Case management and support services coordinate aftercare and engages client in ongoing treatment
- Individual, family, and specialized group therapy
- 12-step meetings (AA/NA)
- Licensed medical professionals on staff

We do not discriminate against any patient in relation to admission, treatment, discharge, continuing care or employment based on race, color, religion, creed, national origin, sex, disability (including limited English proficiency) or sexual orientation. We offer priority admission to at-risk populations including IV drug users, adolescents, women, women with children and preferential treatment services to pregnant women. Pyramid Healthcare, Inc. employees and the public may contact the Commission on Accreditation of Rehabilitation Facilities to report any concerns or register complaints about a CARF accredited health care organization by calling (866) 510-2273 or by email at feedback@carf.org.

Specialized Programs & Services

Legal Assistance
The client addresses past behavior and its effect on achieving and maintaining a positive and productive role in society through lectures, assignments, and individualized therapy. Staff fulfills probation, drug, and mental health court requests on behalf of the client.

Life Skills
Specialists and clinicians collaborate in an effort to provide the client with guidance and instruction on topics such as financial management, job preparation, communication skills/social etiquette, volunteerism, and the appropriate utilization of community resources with the goal of functioning productively in society free of drug and/or alcohol dependence.

Dual-Licensed Healthcare Professionals
Our fully integrated rehabilitation program is dual licensed (RTFA certified by OMHSAS) and directed by certified co-occurring disorders professionals in the administrative, supervisory, and clinical positions to manage medication and diagnose and address client addiction aggravated by mental health conditions including depression, anxiety, bipolar disorder, and mood disorders.

Family Program
Participation in this program helps families gain a better understanding of the disease of addiction. Clients and their families learn skills and develop behaviors effective in minimizing the negative impact of the disease on family members and clients on their journey of recovery.

Admission Criteria
- **Medically** stage adults 18 years of age
- Meets Pennsylvania Client Placement Criteria (PCPC) for detoxification (3A), short-term (3B), long-term (3C) or partial hospitalization (2A) inpatient level of care
- Displays no acute psychiatric symptoms

Accepted Methods of Payment
- Private insurance
- Medical assistance
- County funding
